GENERAL TRACY V BROCKLYN

Meeting at the Lexington Avenue
Opera House - Mayor Strong
Speaks for Seth Low at 10 o'clock

dresses a Crowd at the Brooklyn
 Masonic Temple — Mr. Bryan R.

forces to Express an Opinion.

New York, Oct. 18.—Dozens of meetings were held in the boroughs making up the new city of New York. General Trask, the Republican candidate for mayor, was the principal speaker in the German

General Tracy referred to his personal friendship for Mrs. Low, which he hoped would continue. All he charged him with

"If," said General Tracy, "I thought it necessary to antagonize the party in order to secure good government, I would

The concluding address was delivered by Senator John M. [unclear]

Henry George Meeting.
There was a large and very enthusiastic crowd at a Henry George meet-

which was held at the Lexington ayen
opea house. Mr. George made a speech
introducing ex-Postmaster Dayton, w
was cheered.

After stating that he stood on the principles of Thomas Jefferson, Mr. George said that he had asked no allegiances from Mr. Dayton. They were but imposed on one man rule and thought.

Mr. Dayton made a long address, attacking Tammany hall, and "Crokerism."

Mayor Strong spoke tonight at a St. Louis mass meeting in the Murray Halliseum. He said:

"There has been some little row kick

up over the president of the borough Nebraska presuming to tell us who shall elect as our first mayor. Now, Thurston is a very nice man, but I

do not think that New Yorkers need his assistance in telling them for whom they should vote. When this great city feels like reaching out and taking Nebraska as one of its boroughs, then it will

"The same may be said for the gentleman from Ohio. Now, I am an Ohioan and am also proud of Senator Wagoner."

He is a noble fellow; and a splendid publican, but for all that, he cannot come here and tell us that we don't vote for the man he thinks should be elected.

Seth Low's Remarks.
Seth Low spoke tonight at, Masonic Temple, Brooklyn. He said, in the course of his remarks,

"We have Senators from Nebraska, Louisiana and Ohio, and I don't know what other States, coming here to tell us whom we, people of New York, should

vote for, telling us we ought to elect
mayor and other officers, because of se-
fect, it is going to have quite a lot
iana or in Nebraska, or Ohio. It is
home rule? It does not seem to be

Democratic Meeting.

2500 persons present enthusiastically plauded the name of Robert A. Wyck, Democratic candidate for mayor.

Henry George's party met with
 plause, while hisses greeted the men
 of Seth Low.

Claim Bryan's Endorsement.

The campaign committee of the Jefferson Democracy is out today with a statement that Wm. Jennings Bryan is in favor of Henry George for the first mayor of Greater New York. They have

statement upon an interview which appeared in the Evansville (Ind.) Courier on October 8th, and which was only covered today.

On October 7 Mr. Bryan delivered address in Evansville, and afterwards was interviewed on the situation in York.

is one of the questions asked and the reply he made:

"Do you think Henry George will be elected mayor of Greater New York?"

"I think he has a splendid chance of being the next mayor of New York. It is well known to the people of New York city. The masses believe in him and support him at the polls. I do not

No letters nor telegrams have been received from Mr. Bryan by any of the New York elections.

George managers that would tend to corroborate the above statement. And far as is known, he is not deep as for his opinion on the situation here.

Chicago, Oct. 18.—Referring to the
 has expressed by the followers of H.
 George that recent utterances of Wm.
 Leonard, Brown indicated his

Jennings Bryan indicated his support of the George Hickett in the Greater New York campaign. Mr. Bryan wired the following to the Associated Press tonight:

"Norfolk, Neb., Oct. 3.—I have no

pressed any opinion in regard to the
York mayoralty campaign, and co-
cared to express any opinion in regard
it. Wm. J. Brya

CONVENTION RECALLED.

ceives from Ålur, province of Schonen,
nounces that 22 houses and 16 other
buildings there have been burned. As
the inhabitants lost their possessions

OURAY.

The American-Seltzer shipped ore last month that ran a fairly good point. The West View mine is looking well and shipment will be commenced soon. A very fine body of high grade ore has been opened at the Klondike mine. A streak of very good looking ore about a foot in width has been struck in the breast at the No. 2, on Mt. Hayden.

The Corcoran has 18 men at work and will increase the force from time to time during the winter. This property is making regular shipments.

The U. S. mill is running steadily on good ore. Shipping concentrates every day. The ore being mined is from the U. S. and Haden treasure mines.

The ore at the Wedge is lately being shipped in large quantities. The ore is in the west side of the lower level. The ore is so far, encouraged the owners that sinking will undoubtedly be resumed in the shaft at once.

One of the richest strikes that has been made in this county for some time was on the Haden mine. The matter was kept a profound secret until recently when the facts leaked out. The results from assays show several thousands in gold and a rich showing in silver. The ore is of the quality of the Haden. It is reported that the assay of \$5,000 per foot has been made.

HOPEWELL.

The Chamber and Freeport have fine ore at the 100-foot level, but additional sinking is to be done to demonstrate whether or not it will improve in depth before the ore is finally mined.

William Post has shipped two tons from the Buckhorn for treatment by the Ram process at Denver with a guarantee from a local chemical report that it will pay for the property well this fall and winter. If the ore runs \$30.

The cyanide electric mill failed to prove a success. The last run, a five ton test, made on ore from Buckhorn hill, showed a saving of only \$100 per ton. The ore was tested before the run and found to run from \$20 to \$30 on the strength of this run the scheme was abandoned.

A new shaft has been found in the Hopewell mine. The shaft was supposed to have been entirely worked out, and the ore was being mined in the old shaft. The new shaft is very close to the old one, and the ore is of the same quality. The shaft is now being sunk to a depth of 100 feet.

VICTOR.

The shipments from the Victor mine are regular, pay well and will be lasting. The Victor mine is looking well and shipment will be commenced soon.

The Victor mine is looking well and shipment will be commenced soon. The Victor mine is looking well and shipment will be commenced soon. The Victor mine is looking well and shipment will be commenced soon.

tons. Mr. Conant has men at work sorting, and is at present taking out from 10 to 15 tons a day. Tomorrow an extra shift of men will be put on at the mill, which will be run day and night.

Corcoran has a new shaft at the old and the new shaft at the Barnes lens on Anchor No. 2. The new shaft was sunk some distance south of the old one, and it was designed to do all the work of the old shaft. The old shaft had been sunk, however, it was found that owing to the pitch of the ore chutes most of the values lay above the old workings and to the north of them; so the old shaft, which is now a mine, and considerable ore of good grade is being taken out. Another shaft of three grades will be sent out this week, the grades returning about \$20, \$30 and \$100 respectively.

A new Lehigh air drill has been put in operation at the fifth level in the Independence mine.

Cripple Creek, Oct. 14.—Summer and autumn. The New and Old mines in the Hungry gulch, are down about 100 feet, and have what seems to be a pay ore. Assays taken from an 18-inch vein of phonolite run from \$5 to \$8 per ton. The ore is of the quality of the Haden. It is reported that the assay of \$5,000 per foot has been made.

The Corcoran, located by Sylvester Johnson as the second claim upon the saddle between Battle and Squaw mountains, recently passed into the possession of S. C. Grant and others.

A rich strike was made a few days ago and brings out a proposition that puts the north end of the Corcoran on a par with the south end. A small mine, located on the south end of the Corcoran, has been found to contain a large amount of ore of good grade. The ore is of the quality of the Haden. It is reported that the assay of \$5,000 per foot has been made.

some markets. The increase in employment of labor has continued with further accounts daily of works opening, increasing force of hands, of raising of wages, and at every point where statistics are available can be tested, it appears greater than ever before.

Efforts by the Bank of England have further delayed gold exports, but a cotton movement rising, large shipments to this side are deemed certain and not distant.

Gold, however, means less just now than mere iron. The output of pig iron October 12 is 22,125 tons weekly, against 12,782 a year ago, the increase since July 1 having been 22 per cent. The total output of pig iron for the month of 10,275 tons, which in September indicates a consumption exceeding 22,000 tons weekly, which is about 20,000 greater than ever before and 40 per cent. greater than three months ago. The price of pig iron has been steadily rising since October 1, and prices of finished products, gradually rising, especially heavy demand for plates, rods and bars, and another cause of price has been taken by the Illinois Steel company to deliver 20,000 tons of steel rails for Japan, and the Pennsylvania company has bought 25,000 tons. The shipments on the lakes surpass all records, and the Rockefeller company has contracted for another steamer with two compartments for iron ore, and has ordered another hull for the lakes. Makers of black sheets have raised the price for No. 22 to \$2.10 and wire is five cents higher, the average of iron and steel products for the month of October. The price of the highest point since April 5. The plates are cheaper than \$3.10, with enormous production, and copper at \$11.12 for Lake, with least at \$1.10, but in a future stage.

Grain. The price of wheat, the highest point since April 5. The plates are cheaper than \$3.10, with enormous production, and copper at \$11.12 for Lake, with least at \$1.10, but in a future stage.
